<a href="#">Interesting Function</a>	1500
<a href="#">Good Subarrays</a>	1600
<a href="#">Longest Simple Cycle</a>	1600

**UPD:** Deleted Tags column. I personally like solving problems without seeing the tags. I look at tags only when stuck. Tags can serve as hint1 or hint2 when stuck for 15 to 20 mins.

**Bonus problem sets for people who love CP to the core:**

1. Practice problem set-1 with 30 additional problems: [ProblemSet-1](#)
2. Practice problem set-1 with 50 additional problems: [ProblemSet-2](#)
